DETAILED ACTION

Allowable Subject Matter

1. The following is a statement of reasons for the indication of allowable subject matter: Claim 1 is allowable over the art of record because the prior art does not teach at least two isolation circuits connected between the upper radiators, wherein the isolation circuits resonate at different frequencies within the lower frequency band, and in combination with the remaining claimed limitations.

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Campbell, Robinson, Stahler, Snyder, Rawle, Zeilinger et al., and Yamabayashi et al. are cited as of interested and illustrated a similar structure to a multiband dipole antenna assembly.
